

NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION

EL PASO CHAPTER NO. 248

*A part of El Paso's construction industry and community
since 1978.*

ANNOUNCEMENT

Who: El Paso Chapter 248, NAWIC
What: "Under the Hard Hat"
When: December 4, 2009, 11:30 a.m. to 1:30 a.m.
Where: El Paso Community College, 9050 Viscount (@ Hawkins)
Why: To give women in construction related offices the opportunity to see and "touch" exhibits of items and techniques used on construction job sites.

Most of the time, women who work in construction offices and related subcontractors, suppliers, architects, engineers, etc. rarely see the materials and techniques that go into building a structure.

This is their chance to visit various exhibits all in one location, and learn about different materials and processes.

Each participant will be able to tour the exhibits, visit with the firms providing the exhibits and have questions answered about their fields.

We are planning up to twenty different aspects of construction at this first event, and are planning future events to cover even more areas and specific disciplines.

As an employer, this is your chance to let us educate your employees.....at NO cost to you or your employees!

If you are an employer and would like to send the women on your staff, please call to "RSVP for NAWIC": 833-9494 or 533-9883

We do need reservations, as lunch will be provided.
